

Our Palliative Care Nurse Practitioners

- Provide support to the primary care team and specialist providers to address complex palliative care needs and increase capacity within the region to provide palliative and end of life care
- Provide shared care with the most responsible provider (MRP)
- Provide face to face patient assessments in home, physician office and/or hospital
- Assist with complex or refractory pain and symptom management (e.g. pain, nausea, dyspnea, anxiety)
- Assist with complex or refractory psychosocial needs of patients and their family during life transitions
- Able to prescribe all medications related to a patient’s palliative needs, including opioids
- Develop goals of care and/or end of life planning
- Provide strategies to reduce ED visits or hospitalizations
- Assist with complex hospital discharges or other transitions
- Rapid/Crisis Response—Extended Hours 9am-9pm Mon-Fri and 9am-5pm Saturdays

Eligibility Criteria

- Patients with palliative care needs regardless of diagnosis and prognosis, patient can be on community or palliative caseload
