

Community Nursing Clinics

Home and Community Care Support Services operates over 135 community nursing clinics to provide free, high-quality, specialized nursing care.

All of our clinics are by appointment only, in accessible locations, and many have extended operating hours.

Community nursing clinics provide publicly-funded, patient-centred, high-quality, specialized nursing care.

Clinic nurses will jointly design a care plan and schedule based on your needs and health goals. They provide specialized services – including wound care, intravenous therapy, catheter, diabetes, ostomy care – and health teaching to meet your needs.
