Appendix C: Information Exchange, Communications and Issues Management Protocol

1. Purpose

The purpose of this communications protocol is to set out a framework for the Ministry and Agency to collaborate on public communications opportunities. Clear and direct lines of communication between the Ministry and its Agencies are essential.

This communications protocol will support both the Agency's implementation of its legislated mandate and the promotion of the work it does. It will also support the Minister's accountability to the Legislative Assembly and to Cabinet for the same.

2. Definitions

a. "Public communications" means any material that is communicated to the public, either directly or through the media in:

- Oral form, such as a speech or public presentation
- Printed form, such as a hard copy report
- Electronic form, such as a posting to a website.

b. A "contentious issue" is a matter that is, or may reasonably be expected to be, of concern to the Legislative Assembly or the public, or is likely to result in inquiries being directed to the Minister or Government. Contentious issues may be raised by:

- Members of the Legislative Assembly
- The public
- Media
- Stakeholders
- Service delivery partners.

3. The Agency will comply with the TB/MBC Visual Identity Directive, the Government Visual Identity system and related communications guidelines, the *French Language Services Act*, the *Accessibility for Ontarians with Disabilities Act, 2005*, and any regulations, as amended, along with any applicable communications-related directives, and the Ontario Government's procurement policy, and identify itself in all communications, media responses and news releases as an agency of the Government of Ontario.

4. The Ministry and the Agency will appoint persons to serve as public communications "leads".

- The Ministry lead is the Assistant Deputy Minister, Communications Division, or delegate
- The Agency lead is the CEO or delegate

5. For the purpose of this protocol, public communications are divided into three categories:
- a. Media responses or news releases related to the day-to-day business of the Agency and its programs that do not have direct implications for either the Ministry or the government.
 - The Agency should communicate their media responses or news releases to the Ministry lead who will circulate as appropriate to other individuals within the Ministry.
 - This category does not include contentious issues, media responses, or news releases that directly or indirectly announce grants or other funding to organizations.
 - b. Media responses, news releases, communications plans, branded public collateral (e.g. brochures) and any communications addressing contentious issues or being distributed broadly where provincial or ministerial messaging on government priorities would enhance the Agency's or the Government's profile, or would provide opportunities for local MPP announcements. It is recognized that HCCSS regularly communicates with patients and system partners in the course of managing its operations and these regular operational communications do not require prior approval.
 - The Agency lead will provide to the Ministry lead upcoming media responses, news releases, communications plans, branded collateral and other communications that will be issued to the public and communications plans seven (7) days in advance.
 - Media responses would be dealt with according to media's requested deadline.
 - Contentious matters of an urgent/timely manner would be dealt with in an accelerated timeframe.
 - Final approval is required from the Minister's office and will be sought via the Ministry lead. If the Agency were not to receive comments or approval from the Minister's office or Ministry lead within forty-eight (48) hours of the date on which the item is to be issued, the agency can proceed accordingly.
 - c. Contentious issues, media responses, and news releases that may have direct implications for either the Ministry or the Government or are likely to result in inquiries being directed to the Minister or Government (including all funding or grant announcements and contentious issues).
 - For all contentious issues, the Agency lead will notify the Ministry lead immediately upon becoming aware of the issue and will notify the Minister's office simultaneously. The Ministry lead may also advise the Agency of contentious issues that require attention. The Agency will provide all required background information on the issue to the Ministry lead, who will arrange to have a contentious issues note prepared.
 - The Agency must obtain Ministry approval prior to issuing media responses, news releases or communications in this category. The Agency lead will provide the media response, news release or communications to the Ministry lead who will initiate the

approval process within the Ministry. It is recognized that some HCCSS communications to patients and system partners (e.g. letters or memos) could fall into this contentious category and would not be considered regular operational communications.

- Final approval on media responses, news releases or communications in this category is required from the Minister's office.
