

## Primary Care Advisors: *Your Health System Guide*

- Trusted point of contact for primary care physicians
- Gather your feedback to foster health system improvements
- Help connect you and your patients to health and social support programs and resources in your region, such as;
  - > Falls prevention and exercise classes
  - > Palliative information and resources
  - > Services for patients with complex care needs (COPD, CHF, diabetes, stroke, cardiac diseases)
  - > Carer supports and Adult Day Programs

*Connecting primary care to the information  
you need, when you need it.*
