

Long-Term Care Home Waiting Lists Information

Choosing a long-term care home (LTC, also known as a nursing home) is a major decision for you and your family. It's important to have all the information you need to choose the home that is right for you.

Your CCAC care coordinator can help you think through your decision. It's a good idea to visit the homes you're interested in.

When you apply for long-term care, you can choose up to five homes, in order of preference. How long you wait depends on the size of the waiting list in each home and the urgency of your need. The more urgent your need, the more choices you will be asked to make.

This document enables you to see the size of the waiting list in each long-term care home.

If you move to a home that is not your first choice, you may stay on the waiting list for your first choice.

Notes:

These figures represent wait times for the 90th percentile in each category, based on the total number of people waiting for long-term care as of March 15, 2017. These wait times will vary depending on accommodation availability, and the gender and placement category of the person waiting for long-term care. Individual patients may select up to 5 Long Term Care Homes and would be reflected on more than one waitlist.

The average number of beds available is based upon the number of beds available per month for the last twelve months from March 15, 2017.

Ninetieth percentile waiting time means 90 per cent of the people admitted to a long-term care home are admitted by this time.

For example, a 90th percentile waiting time of 200 days means that 90 per cent of patients admitted were admitted within 200 days of applying to the long-term care home.
