Long-Term Care Homes (LTCH)

Long-Term Care Home Quick Facts

68

Number of LTCH in the Central East area

9,514

Number of long-stay LTCH beds in the Central East area

12,160

Number of individuals waiting for a LTCH in the Central East area

446

Average number of individuals per month who move into a LTCH in Central East

29%

Percentage of individuals moving to their first choice home on initial bed offer

April 30, 2022

Making the decision to move to a long-term care home (LTCHs, also called nursing homes) is a life-changing decision for you and your family. It's important that you have all the information you need to choose a home that is right for you. There are many things to consider including the level of care you need, location, availability and cost. Home and Community Care Support Services organizations in Ontario are mandated to facilitate admission into LTCHs. Our experienced Placement Coordinators will help you and your family through the process.

We can provide information and support that will allow you and your family to make decisions that best meet your needs. It is strongly recommended that you visit the homes you are interested in. Many homes offer virtual tours on their websites.

Each person who applies for long-term care may choose up to five (5) homes, in order of preference.

These decisions will help determine the amount of time a person waits for long-term care. For example:

- 77 per cent of individuals waiting for long-term care beds are waiting for lower-cost, basic accommodations that comprise a minimum of 40 per cent of long-term care beds in the system.
- Semi-private and private accommodations cost more but may have shorter waits.
- Ethnic or culturally designated homes often have longer wait times.

We hope this document provides information you find useful in making the decision. For further information, please contact 1-800-263-3877 for a Home and Community Care Support Services Central East branch near you.

Placement Categories For Individuals

It is the legislated responsibility of the Home and Community Care Support Services Central East placement coordinator to determine the appropriate category into which a person will be placed as set out in the *Long-Term Care Act, 2007*.

Category 1	Individuals who need immediate admission to long-term care and cannot have their needs met at home. Individuals presently in a Long-Term Care Home that is closing within 12 weeks.
Category 2	Individuals who need to be reunited with a spouse/partner who is currently residing in a Long-Term Care Home, and who themselves meet eligibility requirements (including care needs.)
Category 3	Individuals waiting for a Long-Term Care Home serving those of a particular religion, ethnic origin or culture.
Category 4A	Individuals who have high care needs but can still be supported at home until a bed becomes available. Individuals in hospital waiting for long-term care. Individuals in long-term care waiting for transfer to another Long-Term Care Home
Category 4B	Individuals wishing to move to a Long-Term Care Home who have low care needs and are managing at home.
Veteran	Individuals who are veterans and are applying to be placed into a Long-Term Care Home that contains Veteran Priority Access Beds.

Please note: This information is intended to be a resource for families, **not** a definitive guide on choosing a home. Ultimately, choosing the home that is right for you requires careful consideration of many factors, including your health status, needs and personal preferences. Your placement coordinator can help you determine which options may be best for you.

When reviewing the information below, please remember the following:

- As each individual may select up to five (5) homes and up to three (3) bed types in each home, an individual may appear on multiple waitlists.
- The number of days waiting is calculated in the 90th percentile; this means they reflect the overall experience of nine out of ten people. You may wait a longer or a shorter period of time, depending on your circumstances and the number of available beds.
- The numbers below fluctuate based on a variety of factors; your placement coordinator can help you decide what options may best meet your individual circumstances.
- If a Long-Term Care Home does not offer a specific bed type, the number will be designated as “N/A”.
