Note 1 – Healthcare Insurance Reciprocal of Canada (HIROC)

HCCSS Erie St. Clair may be non-compliant with section 28 of the *Financial Administration Act* (“FAA”): The Community Care Access Centres (“CCACs”) HIROC Subscribers’ Agreements were transferred to the Local Health Integration Networks (“LHINs”) pursuant to a transfer order of the Minister of Health and Long-Term Care (“Minister”), as it then was, under section 34.2 of the historical version of the *Local Health Systems Integration Act, 2006* (“LHSIA”). A reciprocal, by its nature and composition, poses a compliance question under the *Financial Administration Act* because risks are shared amongst all the members; as noted below, there is uncertainty about the compliance of this specific HIROC arrangement. It is not certain from the Minister’s order or from applicable legislation whether or not this increase in the contingent liability of the Crown placed HCCSS in non-compliance with the FAA and with each Ministry-LHIN Memorandum of Understanding. Furthermore, the HCCSS has no direct knowledge as to whether or not this matter was addressed in Cabinet’s approvals in respect of the legislative amendment that enabled the transfer.

The HCCSS had previously understood, from the Ministry, that the transfer of the agreement under the Minister’s order does not give rise to non-compliance by HCCSS. However, in December 2020, Ontario Health submitted a business case to the Ministry requesting that the Ministry submit HCCSS’s situation to Treasury Board for an exemption. The HCCSS awaits the outcome from this recent submission.

Note 2 – Ontario Digital and Data Directive, 2021

The assets, liabilities, rights and obligations of the Community Care Access Centres (“CCACs”) were transferred to the HCCSS pursuant to a Minister’s transfer order under section 34.2 of the historical version of LHSIA. As a consequence, the HCCSS took possession of the predecessor CCAC records and other information that are not in compliance with the Digital and Data Directive.

HCCSS Erie St. Clair has suspended work on achieving compliance with the data requirements of the Digital and Data Directive. This work was suspended until further administrative direction given the current system transformation. In the meantime, the HCCSS ensures they respond to data requests from the public in a timely manner.

Note 3 – Archives and Recordkeeping Act, 2006

Pursuant to a transfer order issued by the Ministry under the historical version of LHSIA, the records of the CCAC transferred to the HCCSS. The transfer of these records has resulted in

non-compliance with the *Archives and Recordkeeping Act, 2006* (the “ARA”) primarily related to record series alignment and adoption timelines.

The LHINs submitted two Patient Care Record Series (“Record Series”) to the Archivist of Ontario on November 8, 2019 as part of the record scheduling requirements of the ARA. The Archives Office has approved these submissions. In addition to the Patient Care Record Series, a Source Document Series is required. The LHINs are in the process of completing a Source Document Series for submission to the Archivist.

Note 4 – Expired Janitorial Contracts - Multiple HCCSSs

HCCSS Erie St. Clair has continued with janitorial contracts on a month-to-month basis. Staff have identified this as a procurement need, however due to the pandemic and transition activities, there has not been any opportunity to issue a Request for Proposals for these services. Procurement of cleaning services may be complicated by requirements under the *Employment Standards Act, 2000*, as persons providing cleaning services for a premise are considered ‘building service providers’ in which case specific legislated provisions apply (e.g. regarding termination and severance pay). The HCCSS will need to consider this legislation as part of their procurement plan.

Note 5 – Non-Compliance - Procurement of Service Provider Overflow Contracts – Multiple HCCSSs

HCCSS Erie St. Clair is non-compliant with the requirement under each MLAA to adhere to the 2007 CCAC Client Services Procurement Policy & Procedure. Under this Procurement Policy & Procedure, HCCSS may exercise operational considerations where the resulting total contract price will be equal to or less than \$250,000. These contracts provide no guarantee of volume to the Service Provider and are contemplated to augment patient care in scenarios whereby Market Share Service Providers do not have capacity or resources. Due to continued health human resource challenges, these no-volume contracts have exceeded the \$250,000 threshold but continue to be required to ensure patient care. Ontario Health (“OH”) has requested that HCCSS agencies with current overflow contracts exceeding \$250,000 in value should provide direction to the overflow contracted Service Providers, requesting each Service Provider to submit an application to Ontario Health to move through the current round of the Pre-qualification Process.
