

SouthEasthealthline.ca

Find local health, social and home support services close to home

SouthEasthealthline.ca is a consolidated database and resource tool that provides health service information and helps users better navigate a complex health care system. With nearly 2,500 service listings, this source of easily accessible, reliable information connects people with health services in their local community.

Listings include organization and program descriptions, contact information, addresses, hours of operation and much more. Other features of **SouthEasthealthline.ca** include news, events and career postings.

Users can determine how to best access this information, whether by using the search function, postal code or in alphabetical order.

If you would like a tutorial or are looking to get the most out of using the site, please visit the help section located at the top right corner of the website. From there, you will be able to select the 'Computer Based Training' link to download an instructional video. Please remember to be patient; it is a large file so will take time to download.

For more information, including how to update a service listing or contribute content, visit **SouthEasthealthline.ca** and select the Contact Us page for details. Ontario Health atHome can also provide information at any time. Just call **310-2222** to be connected to the nearest office from your calling location.
